DODGE BROTHERS MOTOR CAR

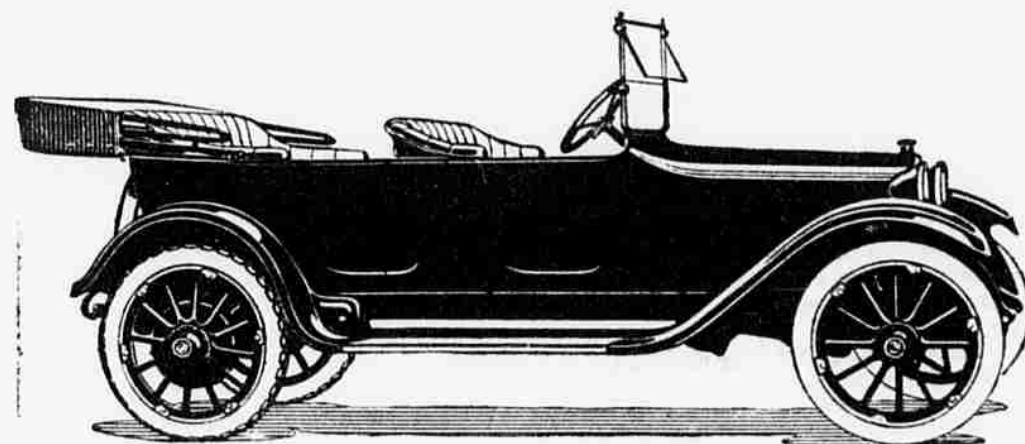

If you are thinking of
buying a new car this spring it
will be to your benefit to look this car over, as
there is more real value in the Dodge car today than
any other car on the market.
It will make from 16 to 22 miles per gallon on gas,
will class with any car under three thousand dol-
lars, the tires on it are small and will not cost you a
farm to re-tire same; it uses a 32x3 1/2 tire which is
the most popular size on the market. It has gen-
uine leather upholstery, and a finish on same that
cannot be beat on any car.
We will have a shipment the last of this week and
have part of same sold—if you want one of these
you had better place your order at once.
